Banner Student Information System Project Update

UC RIVERSIDE – September 23, 2015

In June 2014, Banner Student was purchased for the campus. This robust, flexible, state-of-the-art student information system from Ellucian was purchased to replace the aging current systems such as SIS and Growl. Banner Student will improve academic and administrative processes for undergraduate and graduate admissions, registration, and billing and receivables and will integrate a number of functions that are currently performed in separate, sometimes incompatible, systems. Ellucian is a global leader in education-focused application software with over 2,400 institutions using Ellucian products.

The office of Financial Aid has used Banner Student products to manage financial aid processes since the 2010-2011 academic year. To date, Banner Student engagements continue and campus in-person, group, and online trainings are being scheduled. Announcements about training dates, locations, and times will be emailed in the coming weeks and will be posted on the Banner Student website.

Banner Student will be live for Spring 2016. The Banner Student Implementation Schedule is shown below.

Please visit the Banner Student website to learn more about the products and services the campus will introduce in the coming months and to keep updated on the progress of the implementation.

We urge you to check-in and check back often.
